

NEW PATIENT PORTAL

SeeYourChart patient portal is being replaced with the new patient portal, **CareSpace**. The new portal launches **Monday, April 15, 2019**.

What is CareSpace?

The new portal, CareSpace is a secure, online patient portal that provides you with access to your health information and care team. Once CareSpace is fully integrated, you will be able to:

- Access your health information. CareSpace is easily accessible on your personal computer, tablet, or mobile device, so you have 24/7 access to your medical information.
- Communicate with your SNCC care team. CareSpace provides you a place to send and receive messages with your care team at our practice, and have your questions answered seamlessly.
- Keep friends, family, and caregivers informed. By inviting friends and family to your CareSpace account, your support team can easily access your health information.
- Download and securely send your health information. From CareSpace you can securely send your health information to providers outside of our practice, like your primary care doctor.

How do I get a CareSpace account?

To get a CareSpace account, please provide SNCC front desk staff with your email address. We will send you an invitation to CareSpace which includes instructions on how to complete the simple registration process. CURRENT USERS (previous/current SNCC patient portal users) - If you are currently registered for SeeYourChart, after April 15th, you should be able to transition to CareSpace with minimal interruption.

**Please note, some features will be added after the initial launch date. Thanks in advance for your patience in this process.*

After April 15th, you can access CareSpace by visiting <https://carespaceportal.com> from a browser on your computer, tablet or mobile device.
